

Commercial Lighting Building Types

my rebates

Multi-Unit Residential

Any residential building that contains a minimum of 2 separate residences and a common area that can include lobbies, laundry facilities, or parking. Applies to wood-frame, steel, and concrete construction. The rebate will ONLY apply to retrofits made in the common areas of these buildings, not to any retrofits made to individual, residential units.

Retail

Small, mid-sized and large retail spaces. Includes stand-alone units as well as units part of a strip mall or larger commercial space.

Restaurants

Any fast food, stand-alone, or individual food service operation. Can be located in a larger commercial space.

Office

A building containing commercial business operations, exclusive of manufacturing. Application can be for the entire building or only one operation within a building

Warehouse

A light industrial facility, excluding manufacturing facilities.
